

Best practices

In the month of April with the help of DAV students, teachers, local organisation a program of cloths distribution was conducted. This program was led by principal Mr P.C. Singh public school. It was ensured by the principal that the clothes must be in good condition, clean and appropriate for the summer season example, Cotton shirts & hats.

Such type of program is very helpful to inculcate the human values in the students as well as the society.

Sustainability- encouraging donation of sustainable and durable clothing items to reduce environmental impact.

Blanket drive

The planning of the drive was organised well before the winter by the principal Mr P.C. Singh, to ensure enough time for collection and distribution

Principal, MR P.C. Singh himself inspected all the donated blankets by the students and others social workers for cleanliness and damage. Blanket were distributed in shelters, hospitals and homeless and among outreach people.

Raising awareness and to educate the people various platform were used. It was decided to run this type of blanket drives every year in future also.

Wall painting regarding conservation of forest

In the month of February wall painting programme was conducted by the principal of DAV Public school Majhgawan to collaborate with the local artist and volunteers who are passionate about environmental conservation to create compelling artwork.

Educational aspect- in corporate educational messages into the painting that inform the community about the importance of forest and how to protect them.

Community involvement- this program involves local students as well as people community groups to foster a sense of ownership and responsibilities towards forest conservation. Highly visible walls were chosen for this.

Maintenance plan established for the morals to ensure they remain vibrant and continue to inspire the community overtime.

Feeding to birds in summer season

In summer season a programme for feeding to birds was initiated by DAV public school in the leadership of principal sir Mr. P.C. Singh for it. Appropriate food for different birds' species was provided for fresh water. Some water stations were also set up in the shaded areas to help the birds stay hydrated during hot weather.

Educate the people-

To educate public. Several workshops and flyers were organised to tell the importance of helping birds in summer and how to do it safely.

Regular maintenance- it was made ensure that feeding and water stations are regularly clean to prevent of diseases among the bird's population.

To involve the schools this, type of program was put in there curricular or extracurricular.

Kindness towards animals-

Kindness towards animals and awareness campaign was launched to educate the public. The students as well as teachers about animals' welfare, importance of spying and nurturing pets and how to report animal abuse. The campaign was led by DAV Public school Majhgawan panna.

It encourages the people to shelter or foster to animal and prepare the people for their adoption. People were appealed to develop animal friendly spaces in community such as dog parks and safe shelter for stray animals. People were also aware towards animal protection laws.

In future it was planned to organise events to promote animal human interaction such as (pet adoption day) educational workshops for animal's welfare organisation.

To implement these best practices requires fostering the culture of empathy, responsibility and action. These activities can improve the quality of life for people and animals as well as enhance environmental conservation efforts.
